

BHUMIKA PARMAR

Full Stack Developer

+91 9429551916 | bhumikaparmar.tech@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Full Stack Developer specializing in the MERN Stack with hands-on experience building responsive and interactive user interfaces, scalable backend systems, and RESTful APIs using React.js, Node.js, Express.js, and MongoDB. Skilled in frontend-backend integration, JWT authentication, role-based access control (RBAC), and SQL/NoSQL database development using PostgreSQL, MongoDB, and Prisma ORM through real-world internship experience and personal projects. Strong problem-solving abilities, collaborative development experience, and a solid academic foundation in Computer Applications.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), Next.js, HTML5, CSS3, Tailwind CSS, Bootstrap, Responsive Web Design

Backend: Node.js, Express.js, RESTful APIs, JWT Authentication, RBAC, CRUD Operations

Database: MongoDB, PostgreSQL, MySQL, Prisma ORM, Mongoose ODM, Database Design

Tools & Deployment: Git, GitHub, Postman, VS Code, Vercel, Docker (Basic)

AI Tools: Cursor, Claude, Amazon Q

EXPERIENCE

Full Stack Developer Intern | *Stackdot, Ahmedabad*

Feb 2026 – Present

- Contributed to the development of a Purchase & Payment Management System (PPMS) by implementing responsive frontend features and secure RESTful APIs.
- Worked on real-world feature implementation, frontend-backend integration, debugging, and API integration.
- Participated in code reviews and followed structured development workflows while contributing to both frontend and backend development.

Full Stack Development Trainee | *StackCode Training Institute, Ahmedabad*

June 2025 – Feb 2026

- Completed hands-on training in full-stack development with focus on frontend and backend technologies.
- Built and deployed full-stack projects following industry practices.
- Implemented responsive user interfaces, authentication, API endpoints, and database operations in hands-on projects.

PROJECTS

Purchase & Payment Management System (PPMS) | *React.js · Node.js · Express.js · PostgreSQL*

- Developed responsive frontend features and role-based RESTful APIs serving seven distinct user types (Super Admin, Company Admin, Employee, Purchase Team, Manager, Accountant, Finance Manager) with differentiated access permissions and workflows.
- Implemented JWT authentication system and Role-Based Access Control (RBAC) to enforce permissions across the application.
- Designed relational database operations using Prisma ORM with optimized queries, including duplicate validation, status management, and approval-based business logic for procurement workflows.
- Built and integrated frontend components with backend APIs while following a layered architecture (Controllers, Services, Validation, Middleware) to ensure scalability, maintainability, and separation of concerns.

Book Publisher Platform (BookCraft) | *Node.js · Express.js · PostgreSQL · Prisma ORM*

- Built a complete backend system for managing book publishing operations with full CRUD functionality and implemented Joi validation for secure request validation.
- Implemented JWT-based authentication with Role-Based Access Control (RBAC) for secure multi-user access.
- Applied Prisma ORM for schema management and type-safe database queries with PostgreSQL.

Personal Portfolio Website | *React.js · Tailwind CSS · Vercel*

- Designed and deployed a responsive single-page portfolio using React.js, showcasing projects and professional skills.

EDUCATION

Bachelor of Computer Applications (BCA)

2022 – 2025

Saurashtra University | CGPA: 7.86
